It has been the goal of the building department to go through all the plans and maps that the city has on file and to put those plans into a digital format. Out of about 422 plans we are about 90% complete. With hopes to finish the scanning by the end of the calendar year of 2022.

One of the many responsibilities that the Code/Building Department has is to review our current ordinances and research and plan for any improvements as well as stay up with current legislation of the State of Texas and the U.S. legislation. We are in the middle of reviewing and researching Chapters 4 & 5 in our Code of Ordinance to make recommendations for updates. We are still preparing Chapters 10, 11, and 16

Along with these projects it is our number one goal to maintain, improve, and provide the City of Early and its citizens with a clean, beautiful, and desirable place to call HOME.
